

## Elegance at your door

Fusion door mats bring boring old doormats into the 21st century with a unique twist

Our range of European dyed coir door mats consists of eight modern colours and can be fused together with aluminium, brass, checker plate or coir mat to coir mat, to create designs from a simple NAME through to your own personal or corporate logo.

**The Fusion Bespoke** range of coir mats fuses the base coir matting with aluminium, brass or checker plate lettering, with your choice of font and size of lettering from your artwork.

**The Fusion Bespoke Plus** range of coir mats is where you can fuse multiple colours of the coir mattings or the bespoke metal finishes and the coir matting together to create your own logo or design from your own bespoke artwork (artwork is subject to inspection).

Fusion custom aluminium and brass letters with aluminium frame

HAND CRAFTED COIR DOOR MATS

The Fusion Custom range of coir mats are not stencil-dyed letters that fade very quickly, instead we fuse together your choice of base colour coir matting with a different colour coir lettering, again this is your choice, with eight colours to choose from. Fusion Custom offers a standard font of "HIGHTOWER" in three standard sized texts, 100mm, 150mm and 200mm high (multiple colour lettering is also available at an extra charge).

The Fusion Custom Plus range of coir mats fuses the base coir matting with a different colour coir lettering as above, but with your choice of font and size of lettering from your artwork.

Fusion Frames - a stunning way to finish off any Fusion Door Mat. Fusion Frames come with mitered corners, slip resistant pads and are hand made from solid 25mm x 12mm aluminium or solid brass flat bar, or we can powder coat the frame to your specific colour (extra charges and some conditions apply). There are three standard Fusion Frame sizes available, or we can custom make to your required size.
